

This is a compilation of travel requirements for all countries visited on 206 Tours Pilgrimages. **All information is subject to change at any time.** For the most up to date details, visit the embassy or official government website(s) for each individual country.

As a Tour Operator, 206 Tours must adhere to the rules and regulations set by governing bodies. 206 Tours is not initiating these rules – we are simply following the guidelines in order to continue to provide high-quality pilgrimages to all our clients who are ready to travel. We expect many new protocols will be temporary and hope all operations will be easier in the near future.

## Austria

- Borders are open with no restrictions for fully vaccinated (BioNtech/Pfizer, AstraZeneca, Johnson & Johnson, Moderna, and Sinopharm) travelers presenting certificates or recovered travelers presenting certificates (after 6 months of being infected) from Albania, Andorra, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, North Macedonia, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Vatican City and Australia, Hong Kong, Israel, Japan, Macau, New Zealand, Saudi Arabia, Singapore, South Korea, Taiwan, Thailand, Vietnam, United States of America.

- Passengers are considered "vaccinated" starting on the 22nd day after your first dose, lasting for 3 months from the vaccination date. After the second dose, the validity extends for another 6 months. Vaccines that only require one dose are valid from the 22nd day after that dose and for 9 months from the vaccination date.
- Borders are open with restrictions of a negative PCR test performed no longer than 72 hours before boarding or antigen test no older than 48 hours for all travelers from above countries who haven't been vaccinated. Tests need to be issued by a medical authority; self-tests are not valid. Children under 10 do not need to show a test.
- Borders are open with restrictions of a 10-day self-isolation period and a pre-travel clearance for all the other countries not mentioned above.
- Airports are open.
- Hotels are open but health and social measures are in place. Passengers must show a negative COVID test or proof of vaccination/past infection and wear a FFP2 mask in all public areas. Valid entry test is required for using hotel restaurant. Every 48 hours, you will be able to take a monitored self-test directly at your hotel.
- Attractions are open. FFP2 mask is required in all public areas.
- Restaurants are open, but with health measures and restrictions in place. Passengers need to register, show proof of vaccination/past infection or negative COVID test, and are required to wear FFP2 masks if they are away from their designated table. Max group size for indoors – 4 adults plus children, for outdoors – 10 people. Eating or drinking is allowed only if seated, and not allowed at the bar.
- Vaccination process has started and more than 32% of the population is fully vaccinated.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up to date information. Subject to change at any moment.*

## BELGIUM

- Borders are open with restrictions of a negative PCR test carried out at least 72 hours before departure for all passengers coming from “red” countries. Exception to this rule apply to all passengers that are spending less than 48 hours in Belgium and not travelling by flight or boat or not travelling by train or bus from a country outside the EU or the Schengen Area. If staying longer than 48 hours and travelling by flight or boar or coming to Belgium by train or bus from a country outside the EU or the Schengen Area, passengers must fill in the Passenger Locator Form at the earliest 48 hours before arriving in Belgium.
- Airlines - A negative COVID-19 test certificate to be checked before departing. Operation at Brussels Zaventem Airport is resumed with limited capacity.
- Hotels are open; however, it is recommended for you to check the opening of chosen hotel before arrival. Other accommodations such as bed & breakfast or youth hostels also welcome guests. Hotel restaurants can provide room service for hotel guests.
- Museums are open but reservations are needed.
- Restaurants and Bars are open from 05:00 until 23:30. Take away is available until 23:30.
- Vaccination has started, more than 32% of the population being fully vaccinated.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up to date information. Subject to change at any moment.*

## BOSNIA and HERZEGOVINA

- Borders are open with restrictions of a negative PCR test or antigen carried out at least 48 hours for passengers from EU countries.
- Borders are open with restrictions of a negative PCR test or antigen carried out at least 72 hours for passengers from all the other countries.
- Borders are open with no restrictions for fully vaccinated passengers bringing a certificate showing final dose was taken more than 14 days before arrival at the border or fully recovered passengers holding a proof of recovery from COVID-19 more than 14 days and less than 180 days before arrival at the border.
- Travelers should be prepared for travel restrictions to be put into effect with little or no advance notice.
- Sarajevo Airport is open.
- Hotels are open. Some might decide to remain closed due to low occupancy. It is recommended to check the accommodation conditions before arrival.
- Attractions are open.
- Restaurants and bars are open with health measures in place.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up to date information. Subject to change at any time.*

## CANADA

- US - Canada International Border closure for non-essential travel is extended until 21 July 2021. All travelers entering Canada have to follow a 14-day strict quarantine. Starting with the 6th of July 2021 returning Canadian citizens and permanent residents who are fully vaccinated and meet Government of Canada’s full vaccination requirements may be exempt from quarantine.
- Borders are open with restrictions for rest of the countries: documentation of a negative PCR test taken within 72 hours before boarding a flight to Canada must be presented to the airline. Even if travelers are vaccinated a

- negative test is still required. Upon arrival in Canada, all travelers will be tested again and need to isolate in government approved hotels until test results come in. The stay is at their own expense. In case of a positive result travelers will need to continue isolating at the hotels at their own expense until a negative test is received. Negative tested travelers will still need to quarantine for 14 days and test again in 8 days. All travelers will have their quarantine plans reviewed by a government official and, if not suitable, will be asked to quarantine in a federal quarantine facility.
- Canadian airlines have cancelled all direct flights from India.
- Toronto, Montreal, Calgary, and Vancouver airports have restricted the international flights.
- Hotels are open and operating under strict COVID-19 protocols. Many hotels close to Airports and land border posts have been designated to take travelers for isolation. Most hotels not offering buffet breakfasts.
- Outdoor tourist attractions are opening with capacity limits.
- Restaurants outdoor spaces are open with 50% capacity restrictions and a max of 4 people/table rule.
- Vaccination process has started and more 26% of the population is fully vaccinated. Due to rise in cases from delta variant the government is taking precautions and advising all Canadians not to travel for non-essential reasons.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up to date information. Subject to change at any time.*

## CROATIA

- Borders are open with no restrictions for EU/EEA member states and Australia, Japan, New Zealand, Rwanda, Singapore, South Korea, Thailand, Uruguay, China and special administrative regions of the People's Republic of China – Hong Kong and Macao.
- Borders are open with restrictions of a negative PCR test not older than 48 hours for persons coming from third countries, including the US, traveling only for urgent personal/family matters, business reasons or other economic interest. Persons who do not present a negative PCR result are subject to a mandatory 14-day quarantine / self-isolation measure. Passengers who travel for tourism must send an email to border control stating their intention to cross state border to [uzg.covid@mup.hr](mailto:uzg.covid@mup.hr), followed by presenting Proof of tourism – accommodation proof, travel agency voucher etc. Travelers should be prepared for travel restrictions to be put into effect with little or no advance notice.
- Airports are open and commercial flights operate without restrictions.
- Hotels are open with necessary imposed health and safety measures. Many hotels offer free COVID-19 testing without additional costs.
- Museums & heritage sites are open. All public events, gatherings, and celebrations, including religious services must end at 22:00. Cinemas, museums, galleries, and churches must secure 7m<sup>2</sup> of space per person.
- Restaurants, café and bars are closed, only catering and deliver is allowed during normal hours. Alcohol will not be sold from 22:00 to 06:00.
- Vaccination process has started.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## Czech Republic

- The Czech Republic is ready to host tourists. The number of countries from which is possible to arrive in the Czech Republic is extended to all member states of the EU, selected states from non-EU and newly also the United States of America. All people entering the Czech Republic will still need to observe the current rules, like vaccination, certificate, negative PCR tests or certificate about recovering from COVID-19. Travelers must be able to provide a national vaccination certificate. Foreigners (except for travelers from “green” countries, member states of EU) can come to the Czech Republic only on the grounds of essential reasons, not for tourism or visiting friends.

- The Czech Republic is ready to host tourists. The number of countries from which is possible to arrive in the Czech Republic is extended to all member states of the EU, selected states from non-EU and newly also the United States of America. All people entering the Czech Republic will still need to observe the current rules, like vaccination, certificate, negative PCR tests or certificate about recovering from COVID-19. Travelers must be able to provide a national vaccination certificate. Foreigners (except for travelers from “green” countries, member states of EU) can come to the Czech Republic only on the grounds of essential reasons, not for tourism or visiting friends.
- From the 1st of July, the EU Digital COVID certificate for vaccination, testing or covering from COVID-19 will be used exclusively when traveling within the EU. Fully vaccinated citizens of the Czech Republic will have their rules relaxed when traveling throughout the EU (Updated rules and list of countries here).
- Prague Main Airport is constantly updating the list of resumed and announced routes on its webpage.
- All hotels and hostels are open, only for all travelers who can present a negative COVID-19 test, a vaccination certificate or a document on having undergone COVID-19. Guests are allowed to be served in the hotel's restaurants from 06:00 until 22:00.
- Museums, galleries, heritage sites, exhibition spaces, fairs, castles and chateaux may open under strict sanitary conditions and social distancing rules. The capacity is limited to 1 person/15m<sup>2</sup>, while maintaining a spacing of 2 meters. Guided tours are allowed for up to 10 people, or up to 30 people if all passengers can show a negative test for coronavirus, a vaccination certificate or a document on having undergone COVID-19.
- Restaurants and bars can open their indoor locations under strict hygienic conditions. Guests have to show either a negative test for coronavirus, a vaccination certificate or a declaration that the guest had undergone COVID-19. Only 4 people/table are allowed. Masks are mandatory in all public spaces.
- Vaccination process has started and more than 27% of the population is fully vaccinated.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## FRANCE

- Borders are open with no restrictions for Austria, Belgium, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia,

Slovenia, Spain, Sweden as well Japan, South Korea, Australia, New Zealand, Canada, Thailand, China, Georgia, Rwanda, Tunisia, Uruguay. Before boarding ship or plane, travelers must provide a sworn statement mentioning they have not encountered COVID cases in the past 14 days. Without it, a PCR test will be done at the airport.

- Borders are open with restrictions (14 days quarantine) for The United Kingdom.
- All countries not mentioned are currently not allowed to enter.
- Airlines – air traffic is going back to normal. Masks are compulsory inside the airport as well as on-board planes.
- Hotels are open with safety measures in place. Mask mandatory, use of hydro alcoholic gel upon entrance. Common area cleaning: all handles, switches, lift buttons and room keys is disinfected after each use. Rooms will not be re-let for 24 hours after guest departure (subject to availability). Cleaning equipment will be changed after each room is cleaned, especially cloths and microfiber wipes. All linen and courtesy products available in the room will be systematically changed before re-letting. Only NR EN 14476 + A2 standard disinfectant detergents will be used. An antiseptic deodorant will be sprayed after each room has been cleaned.
- Major Tourist Attractions are now open, however some are not open for groups (e.g. Versailles) and in any case, online reservation is compulsory. Mask and the use of hydro alcoholic gel upon entrance is mandatory.
- All schools have re-opened.
- Shops are now open; mask and the use of hydro alcoholic gel upon entrance is mandatory.
- Bars and restaurants are opened with restrictions: max 10 pax per group, 1 m of safety between tables, masks mandatory for staff and for clients when they move around the restaurant. Bars are not allowed to serve standing clients.

Masks are still compulsory in public transports all across France. All of Paris metro stations have re-opened on the 22nd June. *\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## GERMANY

- Borders are open with restrictions of a negative PCR test no older than 48 hours or proof of a vaccination using Covid App (2 doses of the vaccine and 14-day waiting period after the 2nd dose) for all passengers from EU countries, Norway, Switzerland, United States of America, Taiwan, Hong Kong and Macau, Israel for touristic purposes.
- Airports are open with restrictions in place. All passengers must provide a PCR test upon arrival. Arrival without a negative test will result in heavy fines and immediate deportation to the country of origin at own cost.
- Hotels are open but travelers must present a negative antigen test no older than 24 hours before check-in. FFP2 masks are mandatory in all public areas.
- Major Tourist Attractions are opened with regulations in place, FFP2 masks are mandatory in all public areas.
- Restaurants and bars outside areas are open with health measures and restrictions in place. Indoors seating require an antigen test.
- Vaccination process has started and 35% of the population is fully vaccinated.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## GREECE

- As of May 14th, travelers arriving in Greece are required to have either a negative PCR certificate from a testing laboratory, for a Covid-19 test taken no later than 72 hours before arrival or a negative antigen (rapid) certificate taken no longer than 48 hours before arrival.

This test is mandatory for all tourists (including children over the age of 12), regardless of the epidemiological situation in the country of departure.

- Proof of a negative test is not required however for all travelers that have completed their vaccination (i.e., 14 days have elapsed since the last vaccination, depending on the doses required) and hold a vaccination certificate.
- Acceptable vaccines are: Pfizer BioNtech, Moderna, Astra Zeneca/Oxford, Novavax, Johnson + Johnson/Janssen, Sinovac Biotech, Gamaleya (Sputnik), Cansino Biologics, Sinopharm among others.
- Proof of a negative PCR test is not required if the traveler was tested positive with COVID-19 in the past 30 to 180 days. This can be proved either by presenting a positive PCR molecular or an antigen test result performed by an authorized laboratory or a medical certificate confirming that the holder was tested positive with SARS-CoV-2 virus infection. The certificate is issued 30 days after the day of the first positive COVID-19 test and is valid for 180 days after it.
- Every traveler who arrives in Greece, regardless of the certificate in their possession, may undergo a random health screening. If you are selected, please keep in mind that the screening is mandatory. In case of refusal, authorities reserve the right to refuse entry into the country. The selection is made through a targeted sampling system "EVA" used also in the summer of 2020.
- Important clarification: Entry of tourists in Greece is not subject to vaccination. Presenting a vaccination certificate greatly facilitates the procedures upon arrival. However, in no case is a vaccination or antibodies certificate considered a "passport".
- REQUIREMENTS FOR VISITORS | Before **arrival**: Tourists must fill in the Passenger Locator Form (PLF) no later than 23:59 (11.59 PM) of the day before arriving in Greece. Prior to **departure**, all travelers must ensure that they carry an acceptable form of certification of their health condition. Acceptable documents include: a negative PCR molecular test result from a laboratory; the test must be taken up to 72 hours before entry. A negative antigen (rapid) test result from a laboratory; the test must be taken up to 48 hours before entry. A vaccination certificate issued by a certified authority. A certificate of recovery from the SARS-CoV-2 virus infection issued by a public authority or a certified laboratory. The certificate is issued 30 days after the day of the first positive COVID-19 test and is valid for 180 days after it. Proof that the traveler was tested positive with COVID-19 in the past 30 to 180 days. This can be proved either by presenting a positive PCR molecular or an antigen test result performed by an authorized laboratory or a medical certificate **confirming that the holder was tested positive with SARS-CoV-2 virus infection.**

- All certificates must include the critical information (i.e. number of doses and their respective dates) in English, German French, Italian, Spanish, Russian and the person's full name must match the name on the passport or any other recognized travel document.
- Upon arrival: Travelers arriving in Greece are subject to: Sampling RAPID antigen tests at the entrance gates for selected individuals drawn from a targeted sampling system, based on the "EVA" system. Mandatory isolation if they test positive for SARS-Cov-2, following a sampling test. In this case, the travelers and their travel companions are accommodated in quarantine hotels, where they will undergo further PCR testing to confirm the initial diagnosis. Guests will stay in seclusion hotels for a maximum of 10 days. The expenses of the accommodation in quarantine hotels are covered by the Greek state.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## HUNGARY

- Hungary adopts its own national classification of risk areas, hence travel restrictions for Hungary are not based on the common "EU Traffic Lights" map.
- Borders are open with restrictions of a negative PCR test taken within 72 hours before arrival, followed by undergoing a medical screening, which does not show any suspicion of infection for all non-Hungarian citizens arriving for international sports events or cultural events. An authentic ticket for the event in question must also be presented upon entry. Such foreign citizens are obliged to leave the country within 72 hours of entry.
- Borders are open with restrictions of a mandatory 10-day quarantine from the date of entry for all passengers from United Kingdom and the foreign nationals entering Hungary for urgent matters (medical reasons, education, participation in family events etc.). The quarantine can be shortened after negative result of two PCR tests performed in Hungary at two different times, with at least 48 hours between them. The first of the two tests can also be performed in one of the Schengen countries, the United States of America or Canada.
- Borders are open with no restrictions for all persons who hold a Hungarian immunity certificate or an immunity certificate issued by Serbia, Montenegro, Bahrain, Croatia, Turkey, North Macedonia, Czech Republic, Georgia, Mongolia, Republic of Moldova or Slovenia. Those who can prove with either a Hungarian or English language document that they have recovered from COVID-19 in the past 6 months (e.g.: PCR test results, verification by a health service provider or authority) can enter Hungary without restrictions.
- Entry from third countries is generally not allowed without a special reason.
- Airport is open and will continue to launch flights on a regular basis.
- Hotels are open and may only accept guests who are on a business trip, not tourists, and persons holding a certificate of immunity.
- Museum, theatre, cinema, gym, zoos may be visited only by persons with a certificate of immunity, children under 18 do not need a card.
- Restaurants and bars outside areas are open, indoors can be used only by guests with a certificate of immunity.
- Vaccination process has started and more than 48% of the population is fully vaccinated.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## IRELAND

- Borders are open with restrictions for all international arrivals to Ireland (except arrivals from Northern Ireland) and are required of negative PCR test carried out no more than 72 hours prior to arrival for all passengers arriving in Ireland (more details).
- Borders are open with restrictions of negative PCR test carried out no more than 72 hours prior to arrival and 14 days mandatory quarantine regardless of the test result for Africa (Angola, Botswana, Burundi, Cape Verde, Democratic Republic of the Congo, Egypt, Eritrea, Eswatini, Ethiopia, Kenya, Lesotho, Malawi, Mozambique, Namibia, Rwanda, Seychelles, Somalia, South Africa, Sudan, Tanzania, Tunisia, Zambia, Zimbabwe), Asia (Afghanistan, Bahrain, Bangladesh, India, Indonesia, Kuwait, Kyrgyzstan, Maldives, Mongolia, Myanmar, Nepal, Oman, Pakistan, Qatar, Sri Lanka, Philippines, United Arab Emirates), Europe (Russia, Turkey), North America (Costa Rica, Dominican Republic, Haiti, Panama), South America (Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, French Guiana, Guyana, Paraguay, Peru, Suriname, Trinidad and Tobago, Uruguay, Venezuela).

- Main airports are open and airlines are operating with reduced schedules.
- Hotels are open.
- Major Tourist Attractions are open.
- Restaurants, cafes, bars and pubs are open with group size restrictions. Indoors spaces might open from early July.
- Vaccination has started.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## ISRAEL

• Borders are open with no restrictions from the 1st of August for all fully vaccinated passengers or those presenting a certificate attesting they are recovered from COVID-19 and children 0-6 years. Exception of the rule is for the following countries and travelers who visited these, unless they hold an A1, A5 or B1 visa, or are foreign workers vaccinated in Israel: Argentina, Mexico, Brazil, India, Russia, South Africa.

- Tourists are still unable to enter but individuals should be able to arrive as from the 1st of August due to the spread of the Delta variant. The Ministry of Health has permitted a very limited number of vaccinated groups from various countries who were deemed safe, to enter Israel.
- Ben Gurion Airport is open and many airlines from USA, Europe and UAE are arriving in Israel.
- Hotel are open with regulations in place.
- Tourist attractions are open for Israeli.
- Restaurants are open.
- Vaccination has started.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## ITALY

• Borders are open with no restrictions for Republic of San Marino and the Vatican City State.

• Borders are open with restrictions (1 – present the COVID-19 Green Certificate showing that you have completed the anti-SARS-CoV-2 vaccination cycle at least 14 days ago – certification of successful completion of the vaccination cycle must relate to one of the four vaccines approved by the European Medicines Agency: Comirnaty from Pfizer-BioNtech, Moderna, Vaxzevria, Jansen (Johnson & Johnson) – OR that you have recovered from COVID-19 (the certificate of recovery is valid for 180 days from the date of the first positive swab OR that you have taken a negative molecular or antigen swab test in the 48 hours prior to entering Italy). Children under 6 years of age are exempt from the pre-departure swab test; 2 – complete the digital Passenger Locator Form, which replaces the previous self-declaration) for all travelers from Austria, Belgium, Bulgaria, Cyprus, Croatia, Denmark (including the Faroe Islands and Greenland), Estonia, Finland, France (including Guadeloupe, Martinique, Guyana, Reunion, Mayotte and excluding other territories outside the European mainland), Germany, Greece, Ireland, Israel, Latvia, Lithuania, Luxembourg, Malta, the Netherlands (excluding territories outside the European mainland), Poland, Portugal (including the Azores and Madeira), Czech Republic, Romania, Slovakia, Slovenia, Spain, Sweden, Hungary, Iceland, Norway, Liechtenstein, Switzerland, Andorra, Principality of Monaco, Japan, Canada, United States. Borders are open with restrictions (1 – negative molecular or antigenic swab carried out within 72 hours prior to entry into Italy; 2 – complete a self-declaration; 3 – inform the local health authority immediately of your arrival in Italy; 4 – reach the final destination in Italy only by private transport; 5 – undergo fiduciary isolation and health surveillance for 5 days; 6 – undergo an additional molecular or antigenic swab at the end of the 5-day isolation period) for all travelers from Australia, New Zealand, Republic of Korea, Rwanda, Singapore, Thailand, United Kingdom and Northern Ireland.

- Certificates must be submitted in one of the following languages: Italian, English, French or Spanish.

All countries not mentioned are currently not allowed to enter for tourism.

- Hotels are gradually reopening, most of them are open or ready to open as soon as the demand will increase. More news expected towards next months. Breakfast is served at the table and will take more time than before COVID-19. Buffet breakfast is not allowed.

- Airports are open but the operation and the schedule of the flights is down to each single airlines and should be checked directly with the carrier. Train stations are also operating. Both stations and airports are implementing social distancing measures and compulsory masks. Italy has reinforced 'Covid-tested' flights, extending the trials to airports in Venice and Naples, following Milan and Rome, and extending the authorised routes to flights from Canada, Japan, United Arab Emirates and United States.
- Museums and archaeological sites are currently open as all Italian Regions are considered "low risk areas for Covid19" (white zones). All places of worship like churches are open to the public respecting the social distancing and safety measure. Face masks are required, limited number of visitors allowed, specific rules of each attraction about the maximum pax and booking procedures.
- Bars and restaurants are open for lunch and dinner with seats outside and inside (max 6 people/table), take away or delivery, respecting social distancing and safety measures.
- Vaccination process has started. All Italian Regions are in white zone, which means they are in the lowest-risk areas. Curfew has been removed. Almost all activities have reopened and allowed, always respecting the safety measures. Shopping malls, gyms, cinemas and theatres, ceremonies and events are open. Free movement among the Regions as far as they are in yellow or white zones.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## JORDAN

- Arava or Sheikh Hussein Borders and Aman Airport are open with no restrictions for fully vaccinated travelers. A printed vaccination certificate is a must. Arava border will open from 04 July 2021 (SUN-THU 08:00 – 15:00 / max 500 passengers; closed on FRI-SAT).
- Borders are open with restrictions of a PCR test taken within 72 hours prior to arrival for all passengers who took only the 1st vaccine dose.
- Allenby Border is closed until further notice.
- Queen Alia Airport is open for all nationalities. All airlines are operational.
- Upon departure from Jordan, all travelers who stayed in Jordan 3 days or more must do a PCR test.
- Hotels are open.
- All sites are open from 06:00 until 18:00 all days.
- Restaurants are open from 06:00 until 22:00 all days.
- Archaeological Sites and Museums (Golden Triangle only) are opened with sanitary regulations in place and 50% occupancy restrictions.
- Vaccination has started.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.*

## LITHUANIA

- All passengers arriving to Lithuania from all the countries by all means of transport, including by car should fill Passenger's questionnaire and present the confirmation of the completed electronic form (QR code) to the carrier before boarding the vehicle or to officials at the border checkpoint or passenger checkpoint.
- Borders are open with restrictions of a negative PCR test taken 72 hours at the earliest before arrival, followed by a 10-day self-isolation period, which can be shortened by presenting another negative PCR test after 7 days, for all passengers from: Andorra, Brazil, India, Cyprus, Netherlands, France, Serbia, Sweden, Turkey. The test for COVID-19 will be mandatory for individuals from the age of 16 inclusively. A serological antibody test result will not be recognised.
- Borders are open with restrictions of a negative PCR test taken 48 hours at the earliest before arrival followed by a 10-day self-isolation period, which can be shortened by presenting another negative PCR test after 7 days, for all passengers from: Ireland, Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Greece, Iceland, Spain, Italy, Latvia, Poland, Liechtenstein, Luxembourg, Norway, Portugal, Romania, Slovenia, Finland, Switzerland, Hungary, Germany, Jordan, Japan. (Updated list here)

- Borders are open with no restrictions for fully vaccinated travelers or travelers that have been infected with COVID-19, or just transiting.
- Airports are open with extra health and safety measures. The travelers who will not have a negative test for COVID-19 performed before arrival in Lithuania will be registered immediately for testing, and stricter procedures for verifying the data in the passenger's questionnaire are also foreseen.
- Hotels are open with health measures in place.
- Culture establishments, libraries, Parks, Museums, Galleries, Zoos and Botanical Gardens, Culture centres and Organised tours indoors fall subject to the requirement of 10m<sup>2</sup> visiting space per person (except visits by only those with the National Certificate). No restrictions for outdoors spaces.
- Restaurants and bars are open with health measures in place.
- Vaccination process has started and 34% of the population is fully vaccinated.

\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information.

## LUXEMBOURG

- Borders are open with restrictions of a negative PCR test taken within 72 hours prior to departure or of a SARS-CoV-2 rapid antigen test carried out less than 48 hours before the flight, by a medical analysis laboratory or any other entity authorized for this purpose for all citizens of the European Union and of the countries associated with the Schengen area, as well as citizens of San Marino, Andorra, Monaco and the Vatican/Saint See, as well Australia, China, Hong Kong and Macao (subject to reciprocity at European Union level), Israel, Japan, New Zealand, Rwanda, South Korea, Singapore and Thailand. The negative result of the test must be presented, if necessary, accompanied by a translation, in one of the administrative languages of Luxembourg or in English, Italian, Spanish or Portuguese.
- Borders are open with no restrictions for fully vaccinated (AstraZeneca, BioNTech/Pfizer, Johnson&Johnson and Moderna) or recovered passengers, presenting certificates issued by a practitioner or national authority of an EU Member State of Schengen Area Member State, attesting that vaccination has been performed or that the passenger has been infected within 6 months prior to travelling and completed the applicable isolation period in the respective country with resolution of all symptoms of infection.
- Third-country nationals, except the ones from the above list, may no longer enter the territory of the Grand Duchy until 30th of September 2021 (inclusive). Additional sanitary measures are applicable until the 15th of July 2021 for India, regardless of the means of transport.
- Airports are open.
- Hotels and other accommodation facilities remain open.
- Cultural institutions are open, specific rules are subject to recommendations and guiltiness from Ministry of Culture.
- Restaurants and bars are open. Rules and restrictions are subject to each establishment's decision.
- Vaccination process has started and more than 31% of the population has been vaccinated.

\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up-to-date information. Subject to change at any time.

## MALTA

- Borders are open with restrictions of a negative PCR test performed no later than 72 hours before arrival for Andorra, Australia, Austria, Belgium, Bulgaria, Canada, China (Hong Kong, Macau and Taiwan included), Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Indonesia, Ireland, Italy, Japan, Jordan, Latvia, Lebanon, Liechtenstein, Lithuania, Luxembourg, Monaco, Morocco, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Rwanda, San Marino, Slovakia, Slovenia, South Korea, Spain, Sweden, Switzerland, Thailand, Tunisia, Turkey, United Arab Emirates, United Kingdom, Uruguay, Vatican City. From 1st of July 2021 the UK (2 doses certificate) & the EU digital Covid certificate will be accepted by the Maltese Authority.
- All countries not mentioned are currently not allowed to enter.
- Airlines are operating with limited number of flights.

## UNITED KINGDOM

- Borders are closed for passengers from Red List countries: Afghanistan, Angola, Argentina, Bahrain, Bangladesh, Bolivia, Botswana, Brazil, Burundi, Cape Verde, Chile, Colombia, Congo, Costa Rica, Dominican Republic, Ecuador, Egypt, Eritrea, Eswatini, Ethiopia, French Guiana, Guyana, Haiti, India, Kenya, Lesotho, Malawi, Maldives, Mongolia, Mozambique, Namibia, Nepal, Oman, Pakistan, Panama, Paraguay, Peru, Philippines, Qatar, Rwanda, Seychelles, Somalia, South Africa, Sri Lanka, Suriname, Tanzania, Trinidad and Tobago, Tunisia, Turkey, Uganda, United Arab Emirates (UAE), Uruguay, Venezuela, Zambia, Zimbabwe. Exempt of this are British or Irish National, or those with residence rights in the UK – they will be able to enter but must quarantine in a government approved hotel for 10 days and take 2 COVID-19 tests – one on or before Day 2 upon arrival, one on Day8, which are very specific, not just the normal PCR tests, and must be booked before travelling.
- Borders are open with restrictions of a negative COVID-19 test taken up to 72 hours prior to departure for all passengers, followed by booking (before travelling) and taking specific health tests as follows: Green List countries – take a COVID-19 test on or before Day2 upon arrival. Amber List countries – passengers must take 2 COVID-19 tests: one on or before Day2 upon arrival, one on Day8; also, upon arrival a 10-day quarantine period is necessary, which can end earlier after 5 days if the travelers choose to undergo an additional private COVID-19 test and results are negative.
- Main airports are open and airlines are operating with reduced schedules.
- Hotels are open.
- Tourist Attractions are open, both outdoors and indoors, with group size restrictions, capacity control and social distancing measures.
- Restaurants and Bars are open with group size restrictions, capacity control and social distancing measures.
- Vaccination is has started.

*\*\*\* Non exhaustive list of countries. List of countries mentioned is valid at time of preparing the document, please check your local government site for up to date information. Subject to change at any time.*

## UNITED STATES

- Restrictions, service opening and closures in the U.S. vary by state and sometimes even by county. There are no national policies in place that are the same throughout the country. The CDC (Centres for Disease Control) has announced that fully vaccinated people in the U.S. can resume activities without wearing a mask or physically distancing, except where required by federal, state, local, tribal, or territorial laws, rules, and regulations, including local business and workplace guidance. Masks are still required for local mass transportation and flights. Every air traveller entering the United States needs a negative Covid-19 test result. Passengers are required to get a viral test within three days before their flight to the US departs and to provide documentation of their lab results or documentation of having recovered from Covid-19.

- California – As of June 15, California is back in business. That means hotels, restaurants, wineries, shopping centres, theme parks, museums, and countless other attractions can open their doors without state-mandated capacity restrictions or physical distancing markers. Visitors are still strongly encouraged to check with individual attractions and destinations for any specialized protocols and guidelines, but the default travel message is a big one: “You are good to go”. California still encourages visitors and residents to get vaccinated and, in line with CDC regulations, wear face coverings in congested environments.
- New York – On June 15, almost all pandemic restrictions were lifted in New York state (including New York City) as 70% of New Yorkers 18 or older had received the first dose of their Covid-19 vaccination series. Safety guidelines for restaurants and other businesses are now optional. The state's restrictions remain in effect for large-scale indoor event venues, defined as indoor places that hold more than 5,000 attendees. Mask requirements are still in effect for the unvaccinated. New York officials still recommend quarantine for all travelers who are not fully vaccinated or have not recovered from Covid-19 during the previous three months. Testing three to five days after arriving in New York is also recommended for these travelers.
- The U.S./Canadian border remains closed for all non-essential travel and has been extended through 21 July 2021 as Canada works to get a higher percentage of Canadians fully vaccinated. Essential cross-border workers such as health care professionals, airline crews and truck drivers will still be permitted to cross. That said, Canada will be lifting most international travel restrictions for Canadians, permanent residents, and certain foreign nationals who are fully vaccinated, allowing those eligible to travel to do so with more ease, starting in early July. Please check for additional updates on Canadian travel websites.
- Airlines – International and domestic airlines are operating on increased schedules. Specific international flight to certain countries are now available for fully vaccinated passengers only. All travelers are still required to wear a face-covering with no vents and that fully covers their nose and mouth.
- Face coverings must be worn during the entire flight and in the airport. Upon arrival, travelers must follow local quarantine guidelines or vaccination requirements. Travelers from the following countries are currently prohibited from entry to the United States with exceptions of U.S. citizens, foreign national parents, siblings of U.S. citizens and lawful permanent residents.
  - China Iran European Schengen area (Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, Monaco, San Marino, Vatican City)

In most cases travelers must show proof of a negative COVID test taken within 72 hours of their flight arrival.

- Most hotels are open with COVID restrictions in place with limited occupancy and safety protocols based on CDC (Center for Disease Control) recommendations and local regulations. Procedures across hotel brands have included the production of branded signage stating the new safety precautions in place, promoting social distancing and are offering hand sanitizing stations positioned throughout public areas. Many front-desk areas also have partitions in place to provide a physical barrier between guests and staff and many hotels are requiring face masks for both staff and guests in public areas. All the brands have increased the frequency in which they clean high-touch areas in public spaces and enhanced cleaning and disinfecting of rooms. Health and Safety protocols for each hotel chain can be found on their website.
- Most Tourist Attractions have reopened with reservation requirements and in a few cases limit capacity based on state and county regulations. Restrictions continued to be lifted and COVID cases are reduced in many cities. G2 Travel is compiling a list for all commonly used attractions, by city, that will be made available once completed.
- Restaurants are open in most states for outdoor dining or pick-up/take-out only. Many more States now have indoor dining with reduced or full capacity. As COVID cases fluctuate restrictions will be updated. In most areas seating is limited to 6 people per table with a maximum of 2 households. A minimum of 6 feet (2 meters) distance is required between tables and masks must be worn when not seated in most states. In most States bars, dance clubs, entertainment venues, breweries and wineries are now open, some with limited capacity or outdoor service only, however these restrictions are currently being lifted based on CDC guidelines in most states.

- National Parks - Most restrictions have been lifted based on decreased Covid incidence rates of the state where the National Park is located. Meaning that right now coaches can enter freely in most parks, but the restrictions can return, when cases rise. Some parks have now implemented. Restrictions “by coach operator” whereby a given day max. 3 coaches of any given coach company can be in the park on a given day. The situation will be monitored carefully and sorted out at operations stage. The previous advisement of quoting load factors for full and 50% occupancy will remain in place, so that clients have the option in case one of the planned NPs has restrictions in place at time of planned travel.
- Vaccinations – The U.S. has approved both the Pfizer and Moderna vaccines which require two doses. In addition, the Johnson and Johnson vaccine has also been approved which requires a single dose. Less than six months after the U.S. began distributing coronavirus vaccines, the U.S. Centres for Disease Control and Prevention announced Friday that half of the country's population has received at least one dose. More than 166.4 million residents, or 50.1% of the U.S. population, have received one shot so far. There are over 132 million Americans that are fully vaccinated, according to CDC data.
- Coaches Safety Measures – There are no laws or rules that mandate social distancing on the coach, however, G2 Travel will adhere to the following minimum policies:
  - All transportation companies must comply with state and local government guidelines, G2 Travel will keep clients informed about applicable policies for each trip.
  - Transportation company must ensure that driver is in good health before each service.
  - The driver will check guests’ temperatures prior to boarding the coach.
  - Guests are required until further notice to wear face masks, covering nose and mouth, while onboard chartered vehicles. No exceptions.
  - Guests are informed that they must report to the Tour Leader if they feel unwell (such as symptoms of the flu, cough or fever). The driver will deny boarding to those guests and they will be referred to G2 Customer Care for further assistance.
  - Guests are encouraged to keep 6 feet (2 meters) social distancing between all other customers during the trip. G2 Travel encourages all clients to operate tours without seat rotation and at load factors that allow distancing between people from different households.
  - Hand sanitiser dispensers are required to be available for all customers at the entrance of the vehicle including the restroom, where applicable.
  - The driver will clean the vehicle daily according to the enhanced cleaning and sanitizing protocol, concentrating on high touch areas including but not limited to restrooms, armrests, seat belts, handrails, ventilation controls, overhead storage bins and interior windows. Sanitizing can be done via the commonly recognized methods, such as fogging, spraying disinfectants, UV light, etc.
  - The driver is responsible for keeping constant airflow inside the vehicle to ensure maximum fresh air for guests and must replace air filters with great frequency.
  - It is mandatory for the front row directly behind the driver to be kept empty during any service.
  - Boarding motor coaches will start from back to front and disembarkation will start from front to back.
